

Timber Heron 6606 Tiddly Pips (previously Kaleena)

Sails well, great training/family boats as they give great performance but are also forgiving.

Believe the plans were sold in around 1968, not sure what year she was launched. Restored over last winter with hull stripped back, epoxy sealed (resin only) and repainted. Decks taken back and re varnished with six coats of marine varnish along with the timber spars at the same time. All new lines and some fittings replaced ta the same time. In excellent condition with a good set of sails.

We have another one to restore so this one needs to go.

On registered Dunbier trailer in excellent condition. Happy to arrange a test sail for serious buyers subject to weather.

\$1500 ono
